Please acknowledge this addendum on your bid form.

- 1. Would the County consider an alternate pricing model, whereby a pricing scale (set by average daily population) is used to determine the billable rate during the billing cycle?**

When vendors are required to utilize a fixed rate, in lieu of a pricing scale, we must account for potential risks such as significant drops in population due to events like pandemics or legislation changes. This risk is particularly challenging when fixed labor costs are involved, leading to the necessity of a higher fixed rate to ensure stability.

Answer: We may consider an alternate pricing model.
